## Be SunSmart

Always protect your skin when UV levels are 3 (moderate) and above. Find out today's UV levels.

Protect yourself in 5 ways:

- **Slip on clothing that covers your shoulders, arms and legs.** Choose shirts with collars, high necks and sleeves and trousers or longer shorts and skirts that come below the knees.
- **Slop on SPF30+ or higher broad-spectrum water-resistant sunscreen.** Apply generously 20 minutes before going outside and re-apply every 2 hours. Never rely on sunscreen alone.
- **Slap on a broad-brimmed hat** that protects your face, ears and neck. Broad-brimmed, bucket and legionnaire style hats provide good protection. Baseball caps are not recommended, as they do not protect the ears, cheeks or neck.
- **Seek shade whenever you can** especially when UV levels are highest between 10am and 2pm (11am and 3pm during daylight saving).
- **Slide on sunglasses that meet Australian Standard AS1067** and that fit your face well.

## LIBRARY

There is no more borrowing from the library.
